

Ecological Data Search SxBRC/23/216 - Summary Report

An ecological data search was carried out for land at Pease Pottage Forest on behalf of member of public on 28/06/2023.

The following datasets were consulted for this report:

	Requested	Radius/buffer size
Designated sites, habitats & ownership maps	Yes	1km
Protected, designated and invasive species	Yes	1km

Summary of results

Sites and habitats

Statutory sites	1 AONB / 1 LNR / 1 Country Park
Non-statutory sites	2 LWS / 1 Designated Road Verge
Section 41 habitats	2 habitats
Ancient and/or ghyll woodland	Present

Protected and designated species

International designations	20 species	108 records
National designations	62 species	1,089 records
Other designations	131 species	2,565 records
Total	146 species	2,686 records
Invasive non-native	23 species	219 records

The report is compiled using data held by Sussex Biodiversity Record Centre (SxBRC) at the time of the request. SxBRC does not hold comprehensive species data for all areas. Even where data are held, a lack of records for a species in a defined geographical area does not necessarily mean that the species does not occur there – the area may simply not have been surveyed.

**This summary page may be published.
The full report and maps may not be published or otherwise shared.**

The data search report is valid until 28/06/2024 for the site named above.
